SEM Wealth Management was founded in 1992 by Rick Gage, an engineer experienced in the use of statistical design and optimization. SEM's co-owner, Jeff Hybiak, CFA joined SEM in 1998. Today the team at SEM is comprised of both engineering and finance professionals who combine their knowledge and experience to navigate the uncertainties of the stock market. Our approach to the financial markets utilizes technical analysis to develop computer-driven investment models. These proprietary models, developed through extensive back-testing, have guided SEM's investment approach since its formation.

SEM serves as the Outsourced Chief Investment Officer (OCIO) for financial advisors across the country. We work with these advisors to create customized portfolio allocations which consider your financial plan, cash flow needs, risk comfort level, and overall investment personality. We have a broad range of investments across three distinct investment management styles, including our Cornerstone Models, which follow a Biblically Responsible Investment mandate. These portfolios seek to AVOID companies profiting from areas the Bible says is sinful, to ENGAGE with companies to promote and protect Christian principals, and to EMBRACE companies who are making the world a better place. For more information go to SEMWealth.com/Cornerstone.
